Slip Test Results

COEFFICIENT	RISK OF SLIP
0-25	SLIP PROSPECT- HIGH
25-35	SLIP PROSPECT- MODERATE
36 PLUS	SLIP PROSPECT- LOW

The slip test results demonstrate both grooved surfaces with anti-slip properties on wet and dry conditions resulting in low risk. Quality and safety are paramount to Deckorum, follow our maintenance information to minimise risk and keeping your Composite Decking in excellent condition. Please ensure the composite decking is installed correctly and maintained to allow for proper drainage.
